

Metropolitan Water Reclamation District of Greater Chicago, Lemont Pumping Stations, Force Mains, Reservoir and Wet Weather Treatment Facility

Location of Projects:

MWRD Lemont & Stickney WRP's and the 11 miles of MWRD - owned land between them

Role:

Coordinated Construction Project Control Services previously worked on preliminary studies for this project from 2008 through 2010, including the preparation of the cost estimates.

Role of the Firm:

Develop estimates of probable construction costs at the Preliminary Design Stage, Design Development, 98% and final stages for each of the three related projects - a reservoir, a pumping station, and dual force mains (a total of twelve estimates).
